

CL3-CAM

Headstock

The headstock is now made from cast steel for extra strength. The phosphor bronze bearing offers long life, unrivalled support and is adjustable to offer years of reliable performance.

Capacity

With a 36" capacity between centres and the ability to turn up to a 30" bowl when using the optional CL3/B all your turning needs can be catered for.

Bed Bars

The solid steel chromed bed bars add weight, rigidity and strength while providing smooth travel for head, tail and toolrest banjo.

Tailstock

Heavy duty tailstock within a cast iron construction gives stability and support to the workpiece. It is hollow to enable easy ejection of centres and allow for long hole boring and also features easy to use cam locks.
