

DML305-VS

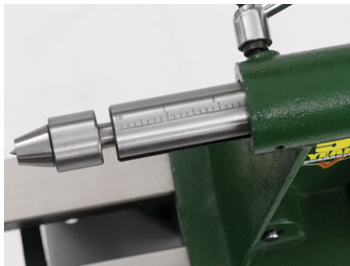

Cam Lock

Both the toolrest and tailstock feature cam lock adjustment.

Powerful Motor

The 1/2hp motor gives quiet and smooth operation with plenty of power for the capacity of the lathes.

Highly Accurate

The spindle lock features graduated markings on the tailstock barrel.

Tool Caddy

A handy tool caddy is supplied as standard.

Extendable Bed

Large capacities between centres can be achieved using the optional bed extensions.

Variable Speed Unit

User-friendly control panel allows instant speed change at the turn of the dial.
