

DML305

Headstock

Headstock Easily accessible pulley system makes changing speed an easy task. The headstock also features indexing.

Cam Lock

Both the toolrest and tailstock feature cam lock adjustment.

Extendable Bed

Large capacities between centres can be achieved using the optional bed extensions.

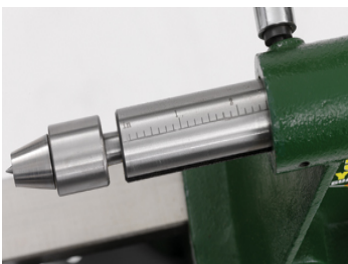

Powerful Motor

The 1/2hp motor gives quiet and smooth operation with plenty of power for the capacity of the lathes.

Tool Caddy

A handy tool caddy is supplied as standard.

Highly Accurate

The spindle lock features graduated markings on the tailstock barrel.
