

WB-PRO15

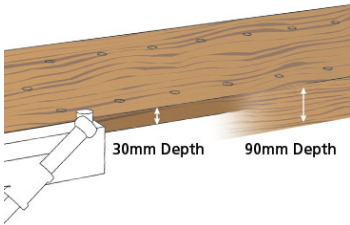

Superior Vice Support

High quality vice with substantial central screw and support bars.

Heavy Duty Bench Dogs

Substantial steel bench dogs, with sprung bearings for extra hold, will give years of reliable service.

Deep Work Top

Thickness of the work top is an impressive market-leading 30mm* and is made from knot-free laminated Beech for strength, rigidity and durability. A generous 90mm apron protects the table edges.

Strong Vice Mount

The vice is secured with a solid cast iron mount for superior rigidity - far heavier than other benches at these prices.
