

Detector digital 0550

Detector digital Skil 0550

Detector digital 0550

Detector digital 0550

Feros/Neferos
Informatii despre
metal

Mod Metal
Up to 80 mm (ferrous)

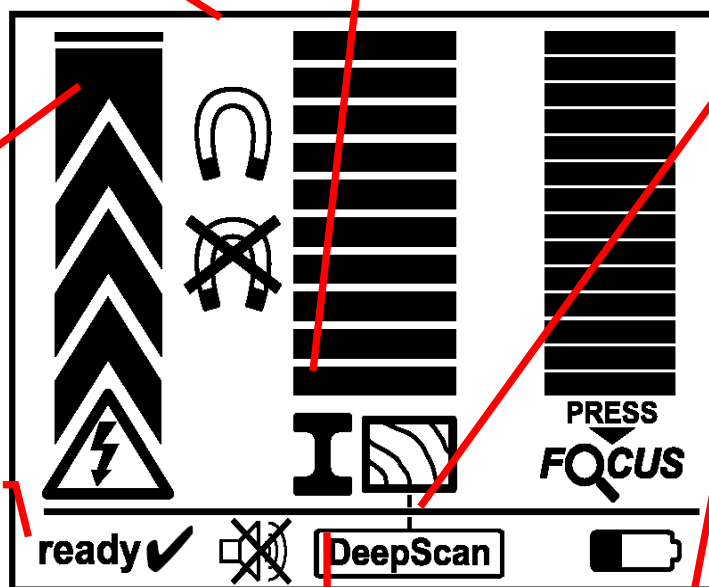

Detectare
conductori electrici
sub tensiune
Intotdeauna activ
pana la 50 mm

Calibrare automata
Intotdeauna gata de
utilizare

Avertizare sonora
Oprita

**Mod "Structura
lemn"**
Pana la 20 mm

Indicator baterie
descarcata
Atentionare

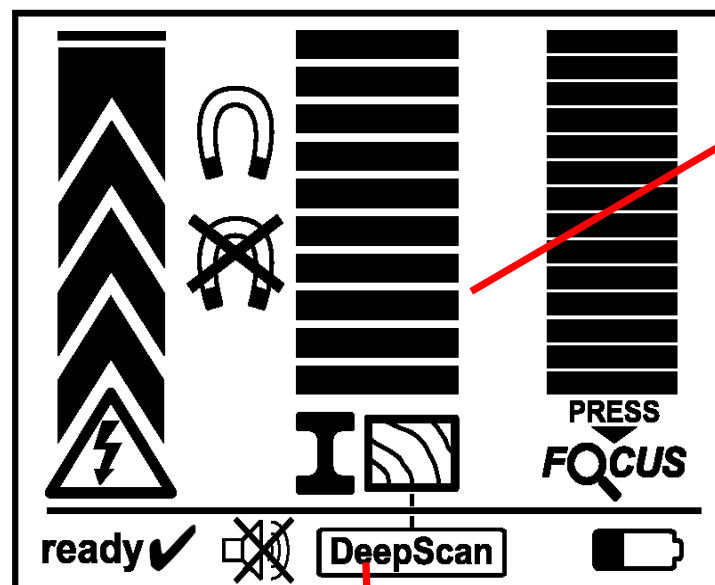

Pentru cresterea
adancimii de scanare
in mod "Structura
lemn"
DeepScan

SKIL

Detector digital 0550

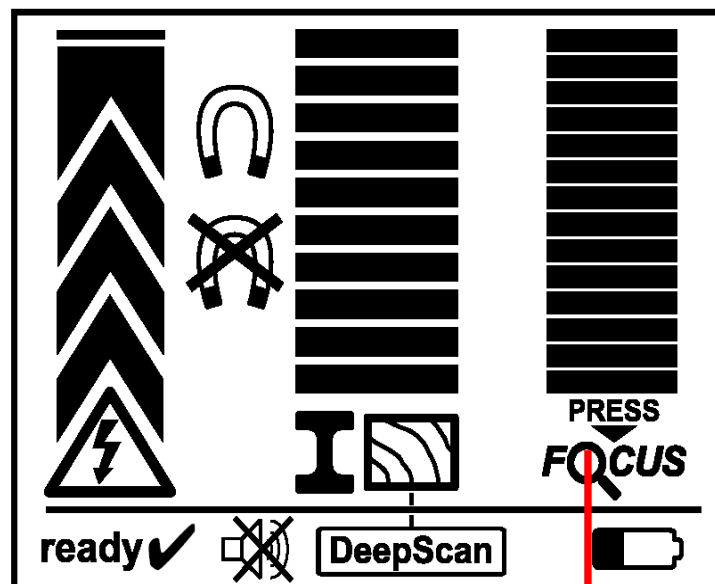

Structuri de lemn
Pana la 20 mm

Pentru cresterea
adancimii de scanare in
mod "Structura lemn"
DeepScan

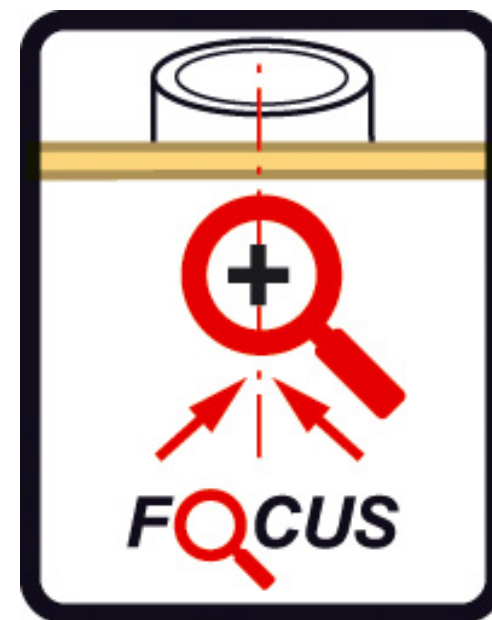

Detector digital 0550

Pentru crestere preciziei
de scanare laterala /
identificarea mijlocului
obiectelor metalice

FQCUS

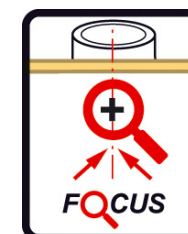

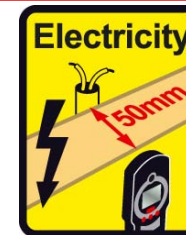

FQCUS

Detector digital 0550

Date tehnice:

- Adancime maxima de scanare:
 - Metale feroase 80 mm
 - Metale neferoase (cupru) 60 mm
 - Conducatori electricici (sub tensiune) 50 mm
 - Lemn/Structuri de lemn 20 mm
- Greutate 0.3 kg
- Inchidere automata dupa 5 minute in care produsul nu a fost utilizat
- Functie DeepScan pentru cresterea adancimii de scanare (in mod Structura lemn)
- Functie Focus pentru localizare precisa a obiectelor detectate
- Avertizare sonora / Semnalizare luminoasa rosu/verde
- Soft grip
- Display LCD mare
- Calibrare
- Indicator baterie descarcata

Detector digital 0550

Set de livrare

- Husa de protectie
- Baterie 9V (6LR61)
