

Real Bosch! Professional Workwear - Perfectly Done

NEW! Workwear and
safety footwear for 2011/2012
Robust and comfortable – for trade and industry.

BOSCH
Invented for life

All Bosch Professional Workwear products are marked with pictograms. The small drawings provide you with a quick overview of the characteristics and details of the particular product. Here you will find a brief explanation of the pictograms.

Workwear		The garment has a mobile phone pocket , which can be closed using either a Velcro-type fastening or a zip.		These trousers have knee pockets made of CORDURA® brand fabric, which offer exceptional abrasion resistance. Inserting the WKA Professional kneepad protects your knee against injury and heavy strain.
		The EN ISO 343 Class 3/1/1/2 standard defines the characteristics of protective clothing that counter the effects of bad weather. The first number states the watertightness and the second number states the breathability (each ranging from classes 1 to 3, with 3 being the highest class).		The product has a practical stitched-on rule pocket .
		Thermal lining: The garment partially consists of an extremely lightweight and heat-insulating quilted lining. This is used for overgarments, undergarments and linings. It consists of polyester with ultrasonically bonded polyester wadding.		Triple stitched seams: A number of the seams on this garment have been sewn using triple stitched felled seams to ensure increased tear resistance and lifetime.
		The product has a holster pocket stitched onto it, which is reinforced with CORDURA® brand fabric to enable optimum use and storage.		

Öko-Tex®: Safety for the skin

To protect your health and ensure your well-being, all Bosch Professional Workwear products are certified to the Öko-Tex Standard 100. This certification, which comprises many different fabric qualities, guarantees that chemicals and harmful substances do not exceed the maximum permitted levels. The fabric qualities of Öko-Tex® are certified to product class II and are regularly tested by an Öko-Tex® institute.

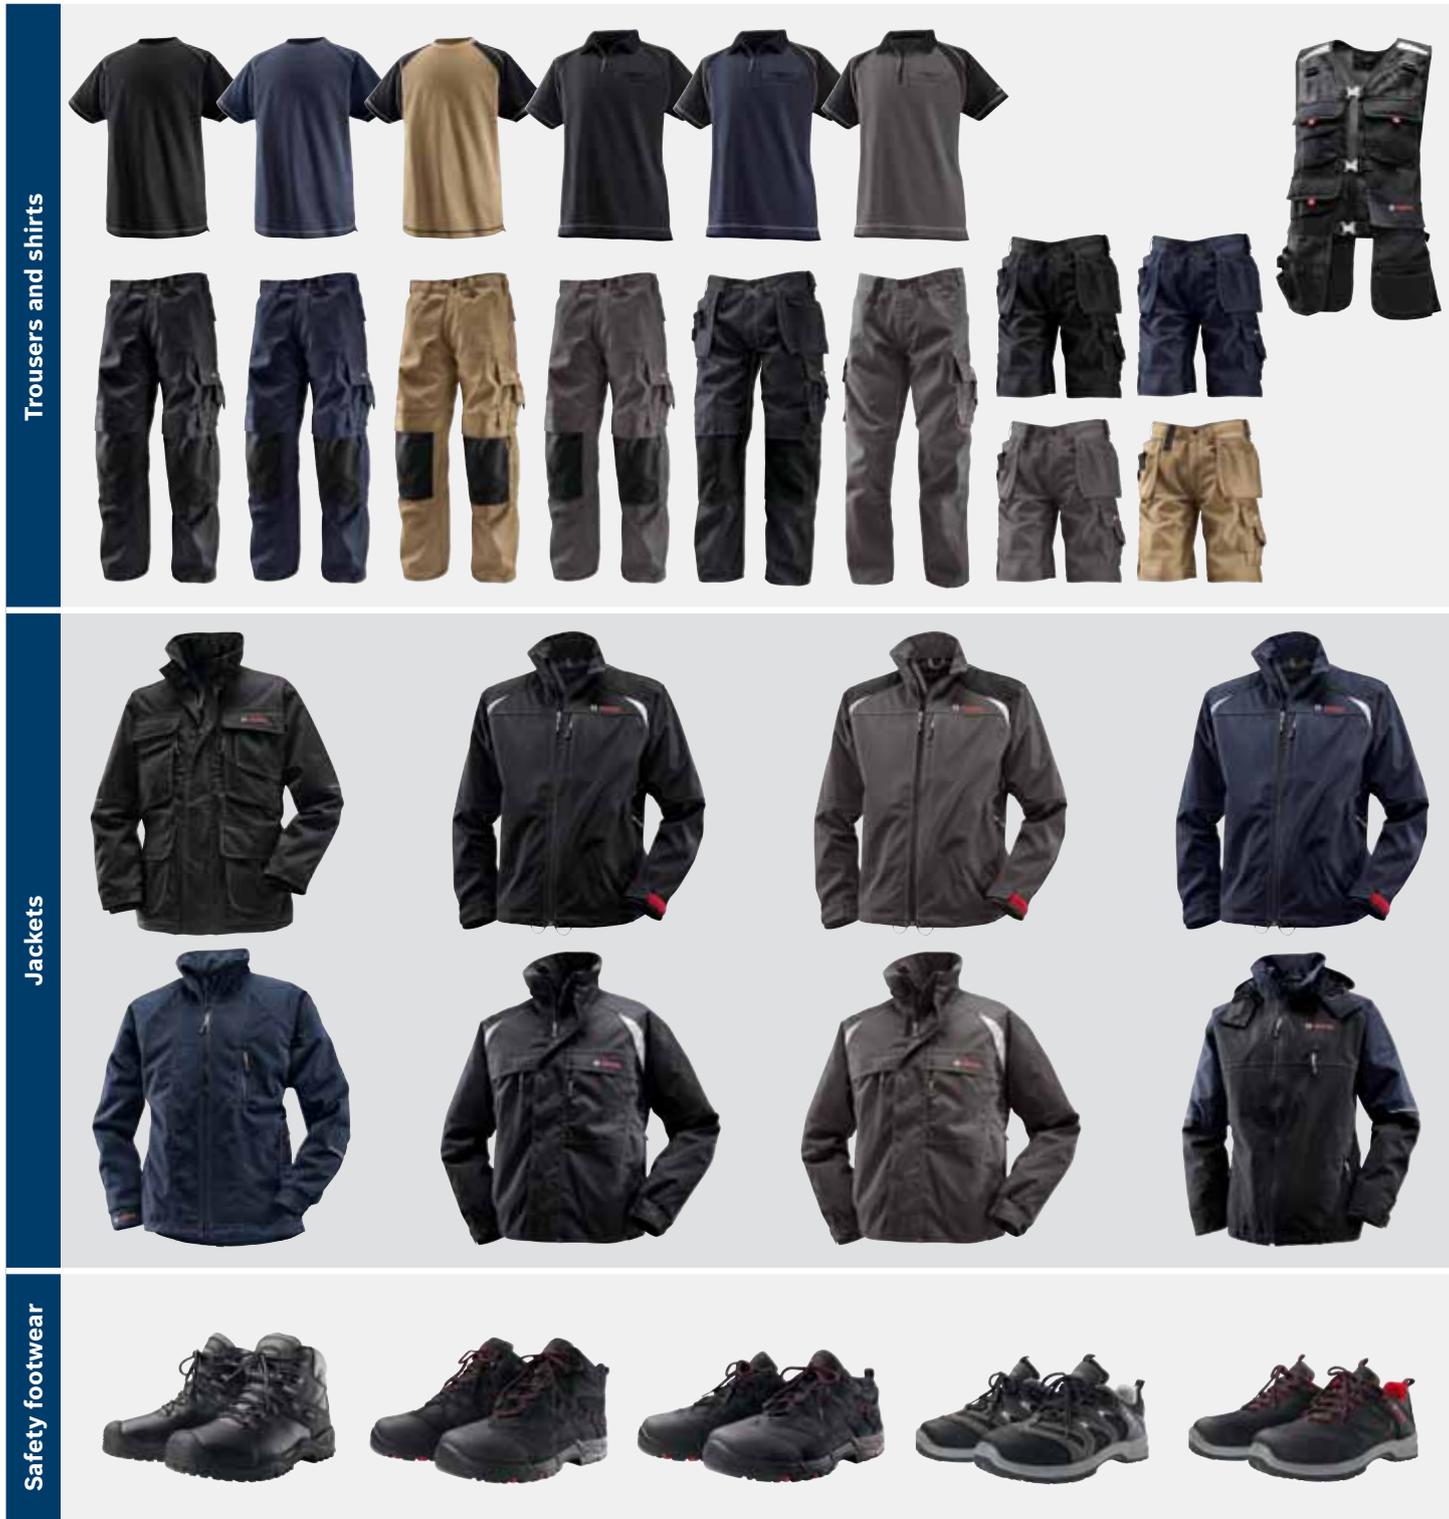

Triple stitched seams: Triple stitching lasts longer

Bosch Professional Workwear is made for professionals who often push themselves to the limit in their work. So their clothing has to be sturdy enough to withstand this. This is why we use triple stitched seams to give your work trousers extra strength. Triple stitched seams increase the tear resistance of the seams at stress points, and they give the product a longer lifetime.

Perfectly Done – for all eventualities

**We know what professionals need
for perfect work.**

We are now offering the matching outfit to go with our professional power tools: the new Bosch Professional Workwear. Manufactured to the highest quality, it is **precisely tailored to your requirements and needs** – with durable materials such as tear-resistant CORDURA® brand fabric* and extremely hard-wearing DuPont™ KEVLAR® brand fabric**. It is made to be extremely robust with triple stitched seams, and it is equipped with practical details that make your everyday work easier.

Five different items of **safety footwear manufactured to EN ISO 20345** complete our new clothing range.

**Bosch Professional Workwear –
Perfectly Done.**

BOSCH

Professional Workwear
Perfectly Done

Perfectly equipped for every job – with matching trousers and shirts

Bosch Professional Workwear provides you with the greatest possible freedom of movement, flexibility, and a high level of comfort **in all work situations**.

Benefit from numerous **practical details**: quick-fitting knee protection pads make it easier to work kneeling down, while holster pockets keep your tools and utensils within reach at all times.

You'll feel like a real professional in the modern Bosch Professional Workwear trousers and shirts – and you'll look like one, too.

Trousers with knee pockets

WKT Professional

Spacious **hip pockets** with extra-sturdy bottom

Rule pocket with two stitched-on compartments for tools and pencils

Knee pockets for Bosch kneepads (WKA Professional) with inserts made of **CORDURA®** brand fabric for high abrasion resistance

Kneepads made of hard-pressed Evazote®*
For the kneepads we use Evazote® foam, which provides optimum insulation and repels moisture thanks to its cell structure. The kneepads are suitable for indoor and outdoor work due to their slip resistance and their shock-absorbing characteristics.

Exceptionally tear-resistant **double and triple stitched felled seams** on legs and crotch

Thigh pocket with double-reinforced bottom and **stitched-on mobile phone pocket**

Good visibility thanks to **reflective effects** in the backs of the knees

* Evazote® is a registered trademark of Zotefoams plc.

1 Trousers with knee pockets

The comfortable trousers for work kneeling down

- ▶ Knee pockets with inserts made of CORDURA® brand fabric for high abrasion resistance and the possibility to insert Bosch kneepads (WKA Professional)
- ▶ Functional blended fabric for high durability and comfortable feel
- ▶ Extra-strong double and triple stitched felled seams on legs and crotch for high tear resistance

2 Cargo trousers

The lightweight trousers for every day

- ▶ Functional blended fabric for high durability and comfort
- ▶ Extra-strong double and triple stitched felled seams on legs and crotch for high tear resistance
- ▶ Ergonomically cut trouser legs for maximum freedom of movement

3 Trousers with holster pockets

The robust trousers with lots of pockets

- ▶ Holster pockets, D-ring, tool loops, rule pocket and many more storage possibilities
- ▶ Knee pockets for Bosch kneepads (WKA Professional) made of CORDURA® brand fabric for high abrasion resistance
- ▶ Holster pockets made of CORDURA® brand fabric for extra-high wear resistance, hip pockets and thigh pocket reinforced with a double bottom

4 Shorts with holster pockets

The shorts with lots of pockets

- ▶ Holster pockets, D-ring, tool loops, rule pocket and many more storage possibilities
- ▶ Holster pocket made of CORDURA® brand fabric for extra-high wear resistance
- ▶ Holster pockets can be tucked inside when not in use

Tool vest*

WHV Professional

Mesh sections on sides and back to counter sweating

Width adjustment for an optimum, secure fit – can also be worn over winter jackets

Four holster pockets made of CORDURA® brand fabric, spacious and robust, with tool loops and stitched-on knife pocket which is reinforced with KEVLAR® brand fabric

Shoulder pads for high level of comfort; reinforcement made of CORDURA® brand fabric to counter abrasion caused by heavy objects

Reflective buckles and reflective effects on the shoulders for good visibility

Eleven pockets reinforced with CORDURA® brand fabric for maximum storage space, with loops for tools and pencils

KEVLAR® brand fabric – impenetrable and comfortable
KEVLAR® brand fabric is a high-strength but lightweight synthetic fibre that is extremely robust – it is also used for bulletproof vests. It is the perfect material to reinforce our knife pockets because, of course, even sharp blades and pointed objects can't penetrate KEVLAR® brand fabric.

5 Tool vest

The practical vest with lots of pockets

- ▶ Padded, extra-wide shoulders for a high level of comfort and reinforcement made of CORDURA® brand fabric for high wear resistance
- ▶ Width adjustment for an optimum fit, also over jackets
- ▶ Everything within reach thanks to eleven different-sized pockets, with reinforcements made of CORDURA® brand fabric and KEVLAR® brand fabric for high durability

CORDURA

Jackets that work hard – in all weather conditions

Robust, waterproof and functional: the Bosch Professional Workwear jackets keep you comfortably protected at all times. Their materials can withstand even the **toughest conditions** – in rain, wind and snow.

The parka, windstopper and rain jacket will be appreciated especially by professionals who work outdoors.

The extremely resilient CORDURA® brand fabric gives the jackets **additional strength** at stress points. Useful pockets and fastenings ensure that you always have your tools and accessories on you.

Parka

WPJ Professional

Large chest pockets with elastic straps, pencil holder, D-ring (for ID cards or keys) and smaller stitched-on pockets

Cold and rain resistant **2-way zip**, with double weather protection flap and "rain gutter"

Inside pocket for mobile phone or MP3 player, cable loops for secure routing of the headset cable

Comfortable **inside collar** made of soft, hard-wearing material

Press studs for easy and wear-free closure

Large front pockets with lots of storage space

CORDURA® brand fabric – 6 times as strong as cotton

Bosch Professional Workwear is exceptionally robust. CORDURA® brand fabric has been worked into many of our jackets and trousers, and into the tool vest. This is an extremely abrasion and tear resistant fabric made of nylon fibres, and is an excellent material for reinforcing stress points such as knees, pockets and shoulder sections.

1 Parka

The high-quality jacket for the winter

CORDURA
F A B R I C

- ▶ High-quality windproof and waterproof winter jacket with warm quilted lining
- ▶ 2-way zip with double weather protection flap, rain gutter and press studs for optimum protection against cold and wet conditions
- ▶ Ten different-sized pockets, some with integrated loops and elastic straps

2 Pilot jacket

The sporty jacket for the winter

- ▶ Windproof and waterproof, breathable jacket with warm quilted lining
- ▶ Essential objects always within reach thanks to five pockets and D-ring
- ▶ Short pilot jacket style for good freedom of movement; ribbed inserts on the sides of the waistband ensure a good fit

3 Windstopper jacket

The hard-wearing jacket with a high level of comfort

- ▶ Reinforcements made of CORDURA® brand fabric for high wear resistance
- ▶ Water-repellent, windproof and breathable fleece material (3-layer) with waterproof nylon reinforcements on the shoulders and in the upper back area
- ▶ Soft lining on collar and cuffs for high level of comfort

Softshell jacket

WSJ Professional

Eye-catching: **reflective effects** on shoulders and sleeves

Breathable, water-repellent and comfortable: the 3-layer **softshell functional material**

Everything on you: **mobile phone and side pockets** with zip

Non-slip: **Velcro-type fastenings** secure the ergonomically cut sleeves

Smooth-action zip: Your chin is always supported thanks to the **chin guard fold**

A perfect fit: thanks to **adjustable waist draw-string**

EN 343 – Rain protection

Our parka, pilot jacket and rain jacket are certified to EN ISO 343. This standard defines the characteristics of protective clothing that counter the effects of bad weather. The first number states the watertightness and the second number states the breathability (each ranging from classes 1 to 3, with 3 being the highest class).

4 Softshell jacket

The comfortable jacket for high freedom of movement

- ▶ High level of comfort due to lightweight, breathable and wind-repellent softshell functional material
- ▶ Good freedom of movement due to stretch material and ergonomically cut sleeves
- ▶ Modern style and red contrast Velcro-type fastenings on the cuffs

5 Rain jacket

The lightweight jacket for wet weather

- ▶ Very lightweight, waterproof and breathable jacket
- ▶ Roll-up hood with adjustable elastic drawstring and Velcro-type fastening for the best possible fit
- ▶ Taped seams and waterproof zips

On a firm footing every time – with our safety footwear

Safety shoes and safety boots complete our Bosch Professional Workwear range perfectly.

With its anatomically shaped toe caps and penetration-resistant, shock-absorbing profiled soles, this footwear offers you the **greatest possible work safety**.

What's more, it also provides a high level of **comfort** even on long workdays – due to a moisture-absorbing inner sole and breathable materials, particularly on the upper.

S3 SRC safety boot

WRB S3 Professional

Anatomically shaped **toe cap** with extra protection for the outer toes

Exceptionally wear-resistant **PU/TPU outsole**

Warm, lightweight and penetration-resistant **textile fibre sole**

Heel edge for firm footing on ladders

Multi-function joint for comfortable flexibility

High level of work safety and comfort

The quality footwear in the Bosch Professional Workwear range is fashionable, comfortable and provides a high level of work safety thanks to a nail penetration protector made of textile or steel. What's more, it is breathable and slip-resistant due to its SRC properties, especially on ceramic and steel.

1 S1P SRC safety shoe

The lightweight shoe

- ▶ Penetration protector made of textile fibres for low weight and good heat insulation
- ▶ Lightweight, shock-absorbing comfort soles
- ▶ Folding flap on the tongue prevents dirt from getting in

2 S1P SRC safety shoe

The comfortable shoe with ESD** properties

- ▶ Electrostatic charge is prevented by ESD properties
- ▶ Penetration protector made of textile fibres for low weight and good heat insulation
- ▶ Lightweight, shock-absorbing comfort soles

3 S3 SRC safety shoe

The high-quality shoe with ESD** properties

- ▶ Penetration protector made of textile fibres for low weight and good heat insulation
- ▶ Multi-function joint for an optimum fit, even when sole is folded
- ▶ Electrostatic charge is prevented by ESD properties

4 S3 SRC safety boot

The high-quality boot with ESD** properties

- ▶ Penetration protector made of textile fibres for low weight and good heat insulation
- ▶ Multi-function joint for an optimum fit, even when sole is folded
- ▶ Electrostatic charge is prevented by ESD properties

5 S3 SRC safety boot

The heat-resistant boot for work kneeling down

- ▶ Toe cap is very durable, even if you work kneeling down, due to raised PU toe cap protection
- ▶ High temperature resistance of up to 300 °C contact heat due to rubber outsole
- ▶ Folding flap on the tongue prevents dirt from getting in

Safety standards for work footwear at a glance

The requirements for safety footwear as personal protective equipment are governed in a standard that is valid across Europe, namely DIN EN ISO 20345. It defines minimum standards for different safety categories.

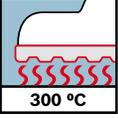

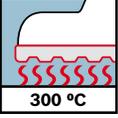

All footwear in the Bosch Professional Workwear range is inspected and certified by an independent testing institute to ensure that it complies with the specifications of this standard. Furthermore, Bosch Professional safety footwear is equipped with additional safety and comfort functions.

Important categories of safety footwear at a glance*	
Category	Requirements
Category SB(I) Basic requirements (examples)	Footwear in general: <ul style="list-style-type: none"> ▶ Toe caps that can withstand the strain of 200 joules of impact energy and 15 kilonewtons of compressive force ▶ Slip-resistant characteristics of the footwear ▶ Connection between the upper and the outsole must withstand defined minimum forces Upper and lining: <ul style="list-style-type: none"> ▶ Minimum tearing force of 60 newtons for upper and 15 newtons for lining ▶ Breathability Outsole: <ul style="list-style-type: none"> ▶ Thickness of the outsole without profile ≥ 6 mm ▶ Fuel resistance of the sole
Category S1 Additional requirements	Same as SB, plus: <ul style="list-style-type: none"> ▶ Closed heel area ▶ Anti-static ▶ Energy absorption capacity in the heel area due to sole damping
Category S1P Additional requirements	Same as S1, plus: <ul style="list-style-type: none"> ▶ Penetration resistance
Category S2 Additional requirements	Same as S1, plus: <ul style="list-style-type: none"> ▶ Protection against water penetration and controlled water absorption
Category S3 Additional requirements	Same as S2, plus: <ul style="list-style-type: none"> ▶ Penetration resistance ▶ Profiled sole

* Stipulations in accordance with EN ISO 20345:2004+AC:2007+A1:2007

The right size clothing –

Pay attention to these points:

- A** Chest measurement. Put the tape measure horizontally around the widest part of your chest. This is used for jackets/combinations. Example: if your chest measures 102 cm, select a 104 cm jacket (always round measurements up). If you wear a pullover under the jacket, select the next size up, i.e. 112 cm.
- K** Measurement for low and normal waist height. Put the tape measure horizontally around your waist.
- L** Hip measurement. Put the tape measure horizontally around your hips.
- E** Leg length. Measure from the crotch to the floor without wearing shoes. Normal 82 cm (32"), Long 90 cm (35").

Jackets, vest and shirts
