Caracteristici

Despre produs

Hooded coverall available in white or blue. The coveralls comprise a 2-piece hood and elastication around the face, wrists, waist and ankles. The garments are based on SMS fabric technology and are designed to protect workers from certain substances, whilst providing a high level of comfort. They are typically used, depending on toxicity and exposure conditions, for protection against particles (Type 5), limited liquid splashes or sprays (Type 6). The coveralls are the ideal choice for workers seeking protection against dirt and grime during light duty work and other industries.
