Caracteristici

Dimensiuni ambalaj:

Lungime mm: 11

Latime mm: 11

Inaltime mm: 2

Greutate g: 89

Despre produs

These Non-Woven Rapid Blend Discs have three components: quality abrasive, strong synthetic fibre mesh, and a smear-resistant adhesive. They can be used in conjunction with fibre and flap discs to blend and achieve a smooth finish in one or two steps. Features and Benefits o A unitised construction from open to tighter with varying weave, for deburring to finishing applications o Combination of unitised construction and high-performance grain means finishing time is reduced and part quality is increased o Thick nylon web resists shedding and loading which provides long product life o 2-in-1 action; can cut like an 80 grit flap disc and finish like a finishing disc o High-performance engineered grain delivers aggressive, fast material removal, shortening cycle times and enhancing part quality o Undersized backing plate enables longer disc use before being replaced Typical Applications o Grinding and blending of steel and stainless steel o Light weld bead o Weld splatter removal o Heavy deburring o Finishing applications
