Despre produs

The Professional Bench Grinder is engineered for durability and high performance, featuring a robust metal housing and precision sealed spindle bearings that ensure longevity. Driven by a powerful 350W induction motor, this grinder operates two 6in. diameter grinding wheels (1in. width with 1/2 in. bore) for efficient metalworking. Safety is prioritised with an NVR switch, and the grinder comes equipped with one coarse and one medium grinding wheel, along with a rotary wire brush for versatile applications. Ideal for swiftly sharpening tools, preparing various metals, and cleaning weld seams, this bench grinder is a valuable asset for any workshop or garage setting. Features and Benefits

- o Sturdy metal casing guarantees strength and durability
- o Sealed spindle bearings offer improved functionality and longer working life
- o Induction motor rated at 350W drives two grinding wheels for effective use
- o Comes with a coarse and a medium grinding wheel to accommodate different grinding needs
- o Includes a 6in. wire brush for cleaning purposes
- o Safety is improved with the NVR switch feature during operation
- o Optimally designed for various metal applications, making it ideal for numerous tasks
