Despre produs

This dual faced hammer combines the resilience and heavy duty blow of a copper face combined with the malleable iron head, and the softer, non-marking benefits that a hide face boasts. The product is ideally suited for occasions where a heavy blow is required combined with a relatively small striking area. Each face can be replaced to keep your tool working to an optimum level. Features and Benefits o Delivers a heavy blow accurately and firmly o Faces are one piece moulded and designed to wear for easy replacement o Copper face gives a high impact blow whilst the hide face offers non marking forces o Robust wooden handle allows the user to wield the product comfortably Typical Applications o Industrial o Engineering o Construction o Automotive Notes o Replacement Copper Face ref 71-312C o Replacement Hide Face ref 70-12R
